General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an eff ^ive notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Comments should refer to No. MC-F-17293.
Decided: April 7, 1986.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the merger of Willett Transports, Inc. (Willett Transports) (MC-163383), of Chicago, IL, into its parent company, The Willett Company (ILL.) (Willett Illinois) (MC-166462) of Chicago, IL, for management, control, and operation. The merger has been completed, inadvertently without Commission approval, and the parties here seek retroactive approval.

Willett Illinois holds authority in Docket No. MC-166462 and subnumbers thereunder; it also holds Willett Transports' former rights in Permit No. MC-163383 (Sub-No. 1) authorizing the transportation of general commodities (except classes A and B explosives and household goods), between points in the United States, under continuing contract(s) with manufacturers, distributors, retailers, brokers, shippers, and receivers of chemicals and related products and petroleum and petroleum products; and in Certificate No. MC-163383 (Sub-No. 2) authorizing the transportation of general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii).

Petitioners also include Willett, Inc. (Willett), a non-carrier holding company which controls Willett Illinois through stock ownership, and David W. Howell, Chairman of the Board of Directors and one of the principal controlling shareholders of Willett. Common cotnrol of Willett Illinois and its subsidiary, Willett Transports, was previously approved by the Commission.

In addition to Willett Illinois, Willett also controls through stock ownership Willett Interstate System, Inc. (MC-152439), Railhead Cartage, Inc. (MC-161673), and Arbet Truck Lines, Inc. (MC-109633). Under 49 U.S.C. 11343(e), the Commission has also exempted, subject to public comment, the continuance in control by Willett of those four subsidiary corporations.

NOTE: A temporary authority application has also been filed.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

49 CFR Part 1042

Ex Parte No. MC-65 (Sub-No. 6)

PASSENGER MOTOR CARRIER SUPERHIGHWAY AND DEVIATION RULES

AGENCY: Interstate Commerce Commission.

ACTION: Supplemental request for comments to notice of proposed rules.

SUMMARY: In response to a petition filed by Trailways, Inc., a notice was published in the Federal Register, of February 1, 1979 (at 44 FR 6580), seeking comments on a proposal to amend the Superhighway Rules-Motor Common Carriers of Passengers at 49 CFR 1042.1, and the Deviation Rules-Motor Carriers of Passengers at 49 CFR 1042.2. The proposed changes would liberalize the circumstances under which regular-route motor carriers of passengers could conduct operations over superhighways and alternate routes. Comments were filed by several motor carriers as well as by Federal and State agencies. No action was taken, partially in light of the expectation of passage of passenger carrier reform legislation. Liberalized entry standards were promulgated under the Bus Regulatory Reform Act of 1982, P.L. 97-261, 96 Stat. 1102, September 20, 1982. However, under the Bus Act, passenger motor carriers are able to obtain new operating authority under highly-relaxed and expeditied procedures. These authorities would include operations similar to those that would be available under the proposal. Because of this fact and the staleness of the record, we are now inquiring whether any interest exists in continuing to pursue the matters raised in the petition and seeking comments on whether to continue the proceeding.

DATE: Comments are due May 12, 1986.

ADDRESSES: The original and, if possible, 10 copies of comments should be sent to:

SUPPLEMENTARY INFORMATION:

In 1979, we noticed a proposal by Trailways, Inc., to amend the Superhighway Rules-Motor Common Carriers of Passengers at 49 CFR 1042.1 and the Deviation Rules-Motor Carriers of Passengers at 49 CFR 1042.2. The proposed changes would liberalize the circumstances under which regular-route motor carriers of passengers could conduct operations over superhighways and alternate routes. We invited comments on that proposal and they were filed by Trailways, Transport of New Jersey, Greyhound Lines, Inc., the United States Departments of Justice and Transportation, the United States Office of Consumer Affairs, the Alabama Public Service Commission, and jointly by Hudson Transit Lines, Inc., and Lakeland Bus Lines, Inc.; Capital Motor Lines, Inc., Carolina Coach Company, and Seashore Transportation Company; and Maplewood Equipment Company, Real Transit Co., Inc., Evergreen Equipment Company and West Hunterdon Transit Co.

No action had been taken in ths proceeding prior to enactment of the Bus Regulatory Reform Act of 1982. P.L. 97-261, 96 Stat. 1102 (1982) (Bus Act). The Bus Act did not address the issue of Superhighway and Deviation Rules. However, under the Bus Act, passenger motor carriers are able to obtain new operating authority under highly-relaxed and expedited procedures. These authorities would include operations similar to those that would be available under the proposal. Because of this fact and the staleness of the record, we are now inquiring whether any interest exists in continuing to pursue the matters raised in the petition.

Accordingly, we solicit comments on whether to continue this proceeding. Any party that originally filed comments in this proceeding may file additional comments.

This action does not appear to significantly affect either the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that adoption of the proposed modification will not have a significant economic impact on a substantial number of small entities becuase carriers are now able to obtain expeditiously through the application procedures the same type of authority that would be permitted under the proposed amendment.

It is ordered:

This proceeding is renoticed to determine whether petitioner, Trailways, Inc., or any other party who previously filed comments in this proceeding, desires that the proceeding be continued.

The index term for 49 CFR Part 1042 is: Buses

This notice is taken under the authority of 49 U.S.C. §10101, 10321, and 10922, and 5 U.S.C. §553.

Decided: April 4, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE No. MC-100 (Sub-No. 5)

AMENDMENT TO THE STANDARDS FOR OPERATIONS
OF INTERSTATE MOTOR CARRIERS
[49 CFR Part 1023]

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: Under 49 U.S.C. 11506, the Commission is prescribing amendments to 49 CFR Part 1023. The amendments,certified to the Commission by the National Association of Regulatory Utility Commissioners, will simplify the transfer of records with respect to motor carrier name changes, and will eliminate the requirement for filing vehicle identification lists with state commissions. The NARUC is authorized to determine and officially certify standards to the Commission for evidencing the lawfulness of interstate operations of motor carriers, and the Commission is required to prescribe and maintain such standards.

EFFECTIVE DATE: The amendments will be effective April 15, 1986.

FOR FURTHER INFORMATION CONTACT:

Jasneth C. Metz (202) 275-7974 or Howell I. Sporn (202) 275-7691

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll free (800) 424-5403.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources. The Commission certifies that this amendment will not have a significant economic impact on a substantial number of small entities.

The index terms for 49 CFR Part 1023 are: motor carriers, insurance, and surety bonds.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

EX PARTE NO. MC-178

INVESTIGATION INTO MOTOR CARRIER INSURANCE RATES

[49 CFR Part 1043]

AGENCY: Interstate Commerce Commission.

ACTION: Interim rules, and request for comments.

SUMMARY: In response to a preliminary review of the initial comments received in this proceeding, and to provide contemporary guidance to applicants who wish to apply to self-insure against bodily injury and property damage claims under 49 CFR 1043.5(a), the Commission proposes to amend §1043.5(a) to include guidelines as to the type of information applicants for selfinsurance should submit with the Form B.M.C. 40 application. These proposed changes should help provide the Commission with relevant information about a carrier-applicant's ability to indemnify claimants under insurance plans that do not rely primarily on commercial insurers. Because of the emergency nature of insurance crisis facing the motor carrier industry today, we will adopt the proposed changes as interim rules. They will be effective immediately because the rules are largely interpretive and because notice and public procedure would be impractical and contrary to the public interest in view of the need to respond as promptly as possible to the cost and availability problems facing motor carriers seeking insurance. See 5 U.S.C. 553(b)(A) and (B). The Commission will adopt final rules as expeditiously as possible after evaluating the comments received. However, carriers authorized to self-insure by us must also seek requisite authority to self-insure from the Department of Transportation.

DATES: Comments are due May 21, 1986.

ADDRESSES: The original and, if possible, 15 copies of the comments should be sent to:

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll free (800) 424-5403.

ENERGY AND ENVIRONMENTAL CONSIDERATIONS:

This action does not appear to significantly affect either the quality of the human environment or conservation of energy resources. Comments are welcome on these issues.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that adoption of these interim rules will not have a significant impact on a substantial number of small entities. They do not require small entities to do anything substantially different in applications under 49 CFR 1043.5 than already is required. The interim rules suggest the types of evidence that should be presented, and clarify the approach the Commission will take in evaluating self-insurance applications. To the extent that the revised approach to reviewing self-insurance applications encourages use of this alternative security mechanism by small carriers, this proceeding may have a beneficial impact on their ability to meet the required financial security obligations.

The index terms for 49 CFR Part 1043 are: Insurance, Motor Carriers, and Surety Bonds.

Decided: April 9, 1986

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Vice Chairman Simmons commented with a separate expression. Commissioner Sterrett dissented in part. Commissioner Lamboley dissented in part with a separate expression.

APPENDIX

Title 49 of the CFR is amended by interim rules as follows:

Part 1043 - [Amended]

1. The authority citation for 49 CFR Part 1043 is revised to read as follows:

Authority: 49 U.S.C. 10101, 10321, 11701, 10927; 5 U.S.C. 553.

2. Paragraph (a) of §1043.5 is revised as follows:

§1043.5 Qualifications as a self-insurer and other securities or agreements.

(a) As a self-insurer. The Commission will give consideration to and will approve the application of a motor carrier to quality as a self-insurer if such carrier furnishes a true and accurate statement of its financial condition and other evidence which will establish to the satisfaction of the Commission the ability of such motor carrier to satisfy its obligation for bodily injury liability, property damage liability, or cargo liability. Application Guidelines: In addition to filing Form B.M.C. 40, applicants for authority to self-insure against bodily injury and property damage claims should submit evidence that will allow the Commission to determine:

(1) The adequacy of the net worth of the motor carrier in relationship to the size of operations and the extent of its request for self-insurance authority. Applicant should demonstrate that it will maintain a net worth that will ensure that it will be able to meet its statutory obligations to the public to indemnify all claimants in the event of loss.

(2) The existence of a sound self-insurance program. Applicant should demonstrate that is has established, and will maintain, an insurance program that will protect the public against all claims to the same extent as the minimum security limits applicable to applicant under §1043.2 of this part. Such a program may include, but not be limited to, one or more the following: reserves; sinking funds; third party financial guarantees, parent company or affiliate sureties; excess insurance coverage; or other similar arrangements.

(3) The existence of an adequate safety program. Applicant must submit evidence of a "satisfactory" safety rating by the Bureau of Motor Carrier Safety continuously for the three years immediately prior to the date of its application or the date on which its initial safety rating was assigned, whichever time period is shorter.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. ACTION: Discontinuance of proposed rulemaking proceeding.

SUMMARY: The Commission is discontinuing the proceeding in which it proposed an ongoing general investigation and revocation mechanism applicable to all motor carriers, brokers, and freight forwarders that fail to maintain the required amounts of insurance or other security for public protection.

The notice instituting this proceeding, 47 FR 55980, December 14, 1982, indicated that the proposed procedures were intended to encourage greater compliance with the Commission's insurance and surety requirements and to provide increased protection to the public and shippers by expediting authority revocation proceedings involving non-compliant carriers. However, upon further consideration, we have determined that existing compliance monitoring and enforcement measures are adequate to support increased mandatory security limits and that the proposed general investigation and revocation procedures are unnecessary to afford the required protections. In a decision denying a petition seeking similarly enhanced enforcement and revocation procedures, we concurrently announced discontinuance of this proceeding. See Ex Parte No. MC-178 (Sub-No. 2), Petition for Rulemaking of the American Bus Association Concerning Enforcement of Minimum Insurance Standards (not printed), served April 23, 1986.

EFFECTIVE DATE: This decision will be effective on May 23, 1986.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

COMMISSION ORGANIZATION; DELEGATIONS OF AUTHORITY

(Office of Public Assistance)

AGENCY: INTERSTATE COMMERCE COMMISSION

ACTION: FINAL RULES: DELEGATIONS OF AUTHORITY

SUMMARY: The purpose of this document is to revise the Commission's delegations of authority by redesignating the Office of Special Counsel as the Office of Public Assistance. In assisting the Commission and the public in determining the public interest, the new Office of Public Assistance will assume the responsibilities previously assigned to the Office of Special Counsel, the Small Business Assistance Office, and the State/Community Affairs Liaison position formerly in the Office of Legislation and Governmental Affairs. Because this rule change involves the internal organization and procedures of the Commission, it is issued in final form and public comment is not being requested.

EFFECTIVE DATE: April 25, 1986

Assistant Secretary

Samuel Ewer Eastman
Director and Special Counsel (Acting)
202-275-7411

SUPPLEMENTAL INFORMATION:

This revised delegation of authority reflects the establishment of a new office which assumes the responsibilities previously assigned to the Office of Special Counsel, the Small Business Assistance Office, and the State/Community Affairs Liaison. The Office of Public Assistance will assist the Commission and the public in determining and representing the public interest, with regard to the Interstate Commerce Act and related statutes.

In particular, the Office will act as the focal point to coordinate Commission activities insuring: (1) that the public interest is fully developed in proceedings before the Commission; (2) that small and minority owned transportation entities, transportation related entities, consumer groups, small communities, carriers and shippers, and State regulatory officials are advised on the applicability and interpretation of the law, and the availability of assistance from the Commission, as this applies to their enterprise; and (3) that the Commission is advised on policy matters related to its small business assistance functions and programs.

Consistent with the limitations previously imposed on the Office of Special Counsel, the Office will participate formally in Commission proceedings only upon submission of petition to do so and approval of the petition by a majority of the Commission.

This action will not have a significant effect on a substantial number of small entities because it involves only the internal organization and procedures of the Commission.

This action will not have a significant impact on the quality of the human environment or the conservation of energy resources.

It is ordered:

The amendment set forth in the appendix is adopted, effective on the date of Federal Register publication.

Lists of Subjects in 49 CFR Part 1011: Administrative practice and procedure; Authority delegations; Organization and functions.

Decided: April 9, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Vice Chairman Simmons would have retained the designation "Office of Special Counsel."

APPENDIX

Part 1011 of Title 49 of the Code of Federal Regulations is amended to read as follows:

Part 1011--(AMENDED)

(1) The authority citation for Part 1011 is revised to read as follows:

Authority: 49 U.S.C. 10301, 10302, 10304, 10305, 10321; 31 U.S.C. 9701; 5 U.S.C. 553.

(2) 49 CFR 1011.8(a) is revised to read as follows:

1011.8 Delegation of authority by the Interstate Commerce Commission to specific bureaus and offices of the Commission.

(a) Office of Public Assistance. (1) There is established an Office of Public Assistance. The Office assumes the functions previously assigned to the former Office of Special Counsel, the former Small Business Assistance Office, and the State/Community Affairs Liaison position formerly in the Office of Legislation and Governmental Affairs. (2) The Office shall be managed by a Director, who will also serve as Special Counsel of the Commission, and by a Deputy Director, who will also serve as the Small Business Assistance Officer of the Commission. The Special Counsel shall be appointed by the Chairman, subject to the approval of a majority of the Commission. (3) The mission of the Office will be to assist the Commission and the public in determining and representing the public interest, with regard to the Interstate Commerce Act and related statutes. The primary function of the Office is to act as the focal point to coordinate Commission activities insuring: (i) that the public interest is fully developed in proceedings before the Commission and especially to contribute to the development of a complete record in proceedings in which important aspects of the public interest otherwise would not be adequately explored, in particular, proceedings affecting the interests of bus passengers, household goods shippers, owner operators, and Class II and III rail carriers and the shippers they serve; (ii) that small and minority owned transportation entities, transportation related entities, consumer groups, small communities, carriers and shippers, and State regulatory officials are advised on the applicability and interpretation of the law, and the availability of assistance from the Commission as this applies to their enterprise; and (iii) that the Commission is advised

on policy matters related to its small business assistance functions and programs. (4) The Office will participate as a party in Commission proceedings, including rulemaking proceedings, only upon submission of a petition to do so and approval of the petition by a majority of the Commission. (5) So that parties having need of the assistance of the Office will be adequately informed, the Office of Hearings is directed in noticing cases for public hearings, to advise parties of the availability of this program.

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

PRESTON TRUCKING CO. - MC-1824
PIONEER TRANSPORTATION SYSTEMS - MC-150339
REEVES TRANSPORTATION COMPANY- MC-129537
SMALLEY TRANSPORTATION COMPANY - MC-121667

Decided: April 21, 1986

Preston Trucking Co., MC-1824, Pioneer Transportation Systems, MC-150339, Reeves Transportation Company, MC-129537 and Smalley Transportation Company, MC-121667, petition for waiver of Section 1057.22(a) and (c)(2) and (4) to the extent equipment receipts are required, of the Lease and Interchange of Vehicles regulation (49 C.F.R. Part 1057) when the lease transactions are between and among the petitioners.

WE FIND:

The petitioners are wholly owned subsidiaries of the Preston Corporation. Control by Preston Corporation has been exempted from prior ICC approval in a series of cases, the most recent of which was Docket No. MC-F-16118. All are motor carriers regulated by this Commission. Authorities are common and contract with nationwide coverage for transportation of general as well as specific commodities. LTL and TL service is offered. Both company-owned and leased equipment is utilized.

The petitioners all have the ability to internally process and document equipment lease transactions between each other. Although the petitioners have separately administered safety programs, each conforms to corporate guidelines to ensure consistency and compliance with all Federal and State regulations.

On April 3, 1984, a waiver of these leasing regulations was granted to two of the petitioners; Preston Trucking Co. and Pioneer Transportation Systems, Inc. The organization now wishes to extend, to carriers that have been added to the group, the benefits that have accrued under the prior waiver. Leasing transactions, utilizing master leases, have been facilitated, empty miles reduced, productivity has improved, and a more efficient responsive public service has been possible.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with National Transportation Policy goals (49 U.S.C. 10101).

IT IS ORDERED:

1. The petition of Preston Trucking Co., MC-1824, Pioneer Transportation Systems, MC-150339, Reeves Transportation Company, MC-129537, and Smalley Transportation Company, MC-121667, all subsidiaries of the Preston Corporation, for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they involve equipment receipts, is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

THIBODEAU-FINCH EXPRESS, INC., MC-129573
ALGOCEN TRANSPORT INC., - MC-166343
TF TRANSPORTS, INC., MC-189460

Decided: April 21, 1986

Thibodeau-Finch Express, Inc., MC-129573, Algocen Transport Inc., MC-166343, and TF Transports, Inc., MC-189460 petition for waiver of Sections 1057.22(a), 1057.22(c)(2), 1057.3(a) and 1057.31(d)(1) of the Lease and Interchange of Vehicles regulations 49 C.F.R. 1057 with respect to equipment leased between themselves.

WE FIND:

Petitioners are general commodity common carriers operating under authorities granted by this Commission. Common control has been authorized in exemption proceedings MC-F-15133 and MC-F-17241. Control rests in Algocen Transport Holdings Limited, a Canadian corporation which is a subsidiary of Algoma Central Railway of Sault Ste. Marie, Ontario.

A unified safety program which includes vehicle inspections and personnel training, is administered by a single Safety Manager. Supervision of compliance with I.C.C. and D.O.T. operational regulations is also a responsibility of the Safety Manager.

In the interest of better equipment utilization, greater energy savings and faster response to customer needs, the petitioners wish to extend, to the most recently established TF Transport, Inc., the benefits obtained from a similar waiver granted to the other two petitioners in a decision served February 8, 1984. The petitioners have found that since common control exists the identification of equipment as being under lease and the exchange of equipment receipts are not only burdensome, but also irrelevant and unnecessary, when equipment is exchanged between themselves.

Operational logs and normal dispatch records are available to indicate times of equipment possession. Master lease agreements, complying with the provisions of §1057.22(c)(4), are utilized in conducting the combined operation of the individual fleets. Since equipment receipts are required under the Master Lease provisions, the petition for waiver is being modified to include a waiver of that provision in the interest of consistency.

We also find granting of the waiver, as requestd, to be consistent with the Commission's past practice and in conformance with its responsibilities under the National Transportation Policy, 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of Thibodeau-Finch Express Inc., MC-129573, Algocen Transport, Inc., MC-166343 and TF Transports, Inc., MC-189460 for waiver of Section 1057.22(a) and the receipt provisions of 1057.22(a)(2) and (4) for the exchange of equipment between themselves, and Sections 1057.31(a) and 1057.31(d)(1), where interchange between the parties is involved, of the Lease and Interchange of Vehicle regulations (49 C.F.R. 1057) is granted.

2. During the period of common control, all provisions of Sections 1057.22 and 1057.31, other than those specifically waived above, will be applicable to the exchange or interchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

SUPPLEMENTAL INFORMATION:

Fox Trucking has entered into a written agreement to acquire all the outstanding capital stock of T.D.S. Transportation, Inc. (T.D.S. Transportation) (No. MC-155118), a motor contrac carrier, and T.D.S. Brokerage. T.D.S. Brokerage holds authority to operate in interstate or foreign commerce, as a broker of general commodities (except household goods), between points in the United States (except Alaska and Hawaii). The already existing relationship between T.D.S. Transportation and its affiliate T.D.S. Brokerage will continue in effect as presently constituted, but under the control of Fox Trucking, which operates as a motor common carrier and as a motor contract carrier, pursuant to authority issued in Docket No. MC-164429 and sub-numbers thereunder. This application, which seeks approval of the change in control of T.D.S. Brokerage that will occur as a consequence of its acquisition by Fox Trucking, has been filed under 49 CFR 1181.32(b), which provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." Applicant suggests that the change in control of T.D.S. Brokerage will not be contrary to the public interest, as the relationship between the two affiliated entities now engaged in contract carriage and brokerage operations will not be materially changed, and the existing affiliation will merely be continued.

Public comment is invited on the question, whether the change in control of T.D.S. Brokerage, as above described, is or is not contrary to the public interest. Afer a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for a decision, in accordance with 49 CFR 1181.32(b). A notice of exemption concerning the acquisition of T.D.S. Transportation by Fox Trucking has been filed simultaneously with the Commission, and has been docketed as No. MC-F-17270.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

WEST MOTOR FREIGHT, INC. MC-21866
WEST CONTRACT SERVICE, INC. - MC-179935

Decided: April 25, 1986

West Motor Freight, Inc., MC-21866 and West Contract Service, Inc., MC-179935, petition for waiver of Section 1057.22(a) and 1057.22(c) concerning the exchange of equipment receipts of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

WE FIND:

Petitioners are regulated common and contract motor carriers performing interstate and foreign commerce under authorities granted by this Commission. They are affiliated through complete common stock ownership by the same individuals. This common control has been approved in Docket MC-F-15992.

Operation of the two companies is conducted from a single headquarters office. The same ultimate management is responsible for the staff, equipment, operation and safety programs of both organizations. In order to improve efficiency of both vehicular fleets, equipment is exchanged between the two companies. Such activity minimizes empty mileage and optimizes equipment utilization.

In conducting these exchanges of equipment, the leasing regulations requiring certain vehicle identification and an exchange of equipment receipts have been found burdensome. The petitioners have also, because of the commonly controlled operations, failed to find that these requirements serve any public or regulatory purpose.

The petitioners propose to utilize master leases in conducting future equipment exchanges. Since Section 1057.22(c)(2) and (4) both require equipment receipts, a modification of the petition to identify both of these specific provisions will more clearly state the intent of the petition.

We further find that the granting of the modified petition, as discussed above, is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of West Motor Freight, Inc., MC-21866 and West Contract Service. Inc., MC-179935, for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4) as they relate to equipment receipts is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

(SEAL)

JAMES H. BAYNE
Secretary

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

NELSON's EXPRESS, INC., MC-76449
ESS TRUCKING CO., MC-121272
VICTORY LEASING, INC., MC-151493

Decided: April 25, 1986

Nelson's Express, Inc., MC-76449, Hess Trucking Co., MC-121272 and Victory Leasing, Inc., MC-151493 petition for waiver of Section 1057.22(a) and a portion of 1057.22(c)(2) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when an exchange of equipment between themselves is required.

WE FIND:

Petitioners are regulated carriers of property performing for-hire transportation as common carriers under certificates issued by this Commission. All are under the joint ownership and control of William G. Nelson as approved by the Commission in MC-F-13417. The operations are complementary and involve transportation within the same geographical area.

Operation and vehicular equipment records are maintained at a single location and readily available for the purpose of determining, when needed, carrier control and individual vehicle work assignment at any specific time.

Petitioners have found, in conducting business on a coordinated basis, the leasing regulations requiring vehicle identification and the issuance of receipts upon exchange of equipment to be unduly burdensome. Therefore, in the interest of improved equipment utilization, fuel economy, improved service and elimination of non-productive expense, the petitioners request waiver of these regulations.

Petitioners indicate an intention to utilize master leases in conducting equipment exchanges between themselves. Since equipment receipts are required when that leasing option is utilized, a waiver granted in response to this petition should include the receipt requirements of Section 1057.22(c)(4) as well as Section 1057.22(c)(2).

We further find that the granting of the petition, modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Nelson's Express, Inc., MC-76449, Hess Trucking Co., MC-121272 and Victory Leasing, Inc., MC-151493 for waiver of Sections 1057.22(a) and 1057.22(c)(2), and modified to include 1057.22(c)(4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057), is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

INVESTIGATION INTO MOTOR CARRIER INSURANCE RATES -
CONFERENCE OF INTERESTED PARTIES

AGENCY: Interstate Commerce Commission.

ACTION: Institution of proceeding.

SUMMARY: The Commission is instituting a proceeding to provide a forum for discussion by interested and affected parties of insurance-related problems in the motor carrier industry. We anticipate that this conference will contribute to a more thorough understanding of: (1) the nature and extent of the insurance crisis confronting motor carriers, (2) the various factors contributing to the prevailing conditions, and (3) administrative and/or legislative actions that may help alleviate the problems.

DATES: Notice of intent to Participate should be filed by May 20, 1986. A docket management conference is scheduled for May 30, 1986.

ADDRESS: Direct notices and related correspondence to:

Office of the Secretary
Case Control Branch

Pleadings should refer to:
CONFERENCE -- Ex Parte No. MC-178 (Sub-No. 3)

FOR FURTHER INFORMATION CONTACT:

Mary Kelly, Chief of Staff
Office of Commissioner Lamboley
(202) 275-7419

SUPPLEMENTAL INFORMATION:

In response to a petition filed by the American Trucking Associations, Inc. (ATA), the Commission instituted a proceeding in Ex Parte No. MC-178, Investigation into Motor Carrier Insurance Rates (not printed), served October 31, 1985, and issued a supplemental decision and notice concerning self-insurance (not printed), served April 22, 1986. The initial notice invited comments concerning: (1) the extent of bodily injury and property damage (BI&PD) insurance problems facing the motor carrier industry; (2) the causes of these problems; and (3) what action, if any, the Commission could take to alleviate the problems. Comments relating to these matters were introduced by 75 parties, including motor property and passenger carriers, their representatives and trade associations, independent trucking interests, shippers and shipper associations, and insurance industry representatives.

By motion filed February 11, 1986, ATA requests that the Commission appoint a hearing officer for purposes of holding a conference of interested parties in this proceeding pursuant to 49 CFR 1110.4. Statements in support of ATA's motion were filed by the United Bus Owners of America, the Movers' and Warehousemen's Association of America, the National Industrial Transportation League, and jointly by the National Small Shipments Traffic Conference, Inc. and the Drug and Toilet Preparation Traffic Conference, Inc.

The initial comments filed in this proceeding indicate that the insurance problem is attributable to a range of factors. An informal conference of interested parties conducted before a Commission official could be useful in promoting full and frank discussions among the affected groups. Accordingly, pursuant to 49 U.S.C. 10321 and 10311, and 49 CFR 1110.4, we are instituting such a proceeding. Our purpose in taking this action is consistent with that announced in our prior decision inviting written comments: to collect and analyze, with the assistance of those parties most directly affected, information concerning the extent, causes, and recommended solutions to problems affecting the cost and availability of motor carrier BI&PD insurance.

A docket management conference is set for 10:00 a.m. on May 30, 1986, in Hearing Room C of the Interstate Commerce Commission Building, Washington, D.C., before the Honorable Paul H. Lamboley, Commissioner. Under the supervision of Commissioner Lamboley, common interest conference groups may be formed, if useful, to focus on specific areas material to the situation.

In advance of the docket management conference, parties should meet, where practical, to discuss organizational and topical agenda suggestions, and submit ideas to the Commissioner no later than 2 days before the conference date. An agenda for the docket management conference will be available from the Commission's Office of Legislative and Public Affairs at noon on the day before the conference.

At the conference, parties should be prepared to discuss the most effective means of using this forum to ameliorate or eliminate the insurance crisis in the motor carrier industry. They also should be prepared to discuss and offer suggestions towards developing the most practicable, effective, and administratively feasible course of Commission action to assist carriers in resolving the insurance crisis consistent with our statutory responsibilities to promote safe operations.

The record, including findings and recommendations developed in the conference group, shall be certified by Commissioner Lamboley to the Commission.

This decision will not significantly affect the quality of the human environment or conservation of energy resources and will not have an adverse impact on small business.

AUTHORITY: 49 U.S.C. §§10321 and 10311.

It is Ordered:

1. A proceeding is instituted to provide a forum for discussion of motor carrier liability insurance issues, with a view toward developing recommendations for Commission action to alleviate insurance cost and availability problems.

2. A docket management conference on this subject will be held before the Honorable Paul H. Lamboley, Commissioner, in Hearing Room C of the Interstate Commerce Commission Building in Washington, D.C., at 10:00 a.m. on May 30, 1986,

3. After the initial docket management conference, a service list shall be established and served to permit notice to all interested parties. Copies of all materials filed with the Commission in this proceeding must be served on all parties on that list.

4. This notice will be published in both the ICC and Federal Register.

Decided: April 24, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Commissioner Andre would have assigned the conference to one of the Commission's professional hearing officers. Chairman Gradison dissented with a separate expression.

James H. Bayne
Secretary

(SEAL)

CHAIRMAN GRADISON, dissenting:

I am opposed to further expansion of the Commission's involvement in this area of limited ICC jurisdiction. I view the conference as needless duplication of our existing rulemaking in Ex Parte No. MC-178, Investigation Into Motor Carrier Insurance Rates.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

WAS PUBLISHED IN THE FEDERAL REGISTER ON MAY 7, 1986

49 CFR Part 1011

DELEGATION OF AUTHORITY TO THE MOTOR CARRIER BOARD

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission is exercising its authority under 49 U.S.C. 10305(a) to delegate the processing of certain types of finance transactions from Divisions of the Commission to the Office of Proceedings' Motor Carrier Board. These transactions include the transfer of brokers' licenses and Certificates of Registration, and the change in control of brokers. The Commission has determined that these proceedings can be processed more efficiently by the Office of Proceedings. Appropriate revisions in the Code of Federal Regulations will be made to reflect this action.

EFFECTIVE DATE: This decision is effective May 8, 1986.

FOR FURTHER INFORMATION CONTACT:

Howell I. Sporn (202) 275-7691 or Warren C. Wood (202) 275-7977

SUPPLEMENTARY INFORMATION:

By action of July 26, 1984, 49 FR 31070 (August 3, 1984), the Commission recalled certain types of finance transactions that were previously handled by the Office of Proceedings' Review Board and delegated the processing of these transactions to Divisions of the Commission. These transactions included applications seeking the transfer of brokers' licenses and Certificates of Registration and applications for approval of the change in control of brokers. See 49 CFR 1011.6(e)(3).

We have determined that these proceedings can be processed more efficiently by the Office of Proceedings' Motor Carrier Board. Accordingly, under 49 U.S.C. 10305(a), we shall revise the regulations at 49 CFR 1011.6(e)(3) and 1011.6(k), as set forth in the Appendix, to reflect this action. Because the rule revisions only affect internal Commission procedures, they are issued here in final form. Public comment is not required. 5 U.S.C. 553(b)(A).

This action does not significantly affect the quality of the human environment or the conservation of energy resources.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the transactions described below. Transco, Inc. (Transco), a noncarrier holding company that controls motor carriers E & L Transport Company (MC-2487) and Maris Transport Limited (MC-125924), proposes to acquire control, either directly or through a subsidiary or affiliate, of McCallum Holdings Inc., a noncarrier holding company, through the purchase of all of the latter's stock. McCallum Holdings Inc. is a subsidiary of another holding company, Woodbridge Company Limited (Woodbridge). At present, McCallum Holdings Inc. controls four pertinent entities: McCallum Transport Inc. (McCallum) (MC-127284), a motor carrier, Transport McCallum (Quebec) Inc. (McCallum Quebec) (MC-127397), also a motor carrier, and noncarriers 662084 Ontario Limited (Ontario) and 149832 Canada Limited (Canada). As the initial step in the transaction, Ontario will acquire the interstate operating authority of McCallum and Canada will acquire the authority of McCallum Quebec. The stock of McCallum and McCallum Quebec will then be acquired by another affiliate of Woodbridge. Finally, the stock of Ontario and Canada will be acquired by Transco and Ontario and Canada will be renamed McCallum Transport Inc. and Transport McCallum (Quebec)

inc., respectively.

The authority presently held by McCallum in No. MC-127284 authorizes the common carrier transportation (1) in foreign commerce only, of automobiles, trucks, and buses, between ports of entry on the U.S.-Canada border on the St. Clair, St. Lawrence, Detroit and Niagara Rivers, and named points in Michigan and New York; and (2) in interstate or foreign commerce, of general commodities (with exceptions), between points in New York, New Jersey, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, and Minnesota. The authority presently held by McCallum Quebec in No. MC-127397 authorizes the common carrier transportation, in foreign commerce only, of automobiles, trucks, and buses, and parts and accessories thereof (subject to certain restrictions), between points on the U.S.-Canada boundary line in New York and Vermont, on the one hand, and, on the other, named points in New York and Vermont.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

PACEMAKER EXPRESS, INC., MC-180789
LAIDLAW CARRIERS, INC., MC-113784
ZEPHYR TRANSPORT, INC., MC-170981
GLOBAL VAN LINES, INC., MC-41089/144860

Decided: May 1, 1986

The Contrans, Corp., a non-carrier and its family of motor carriers, Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carriers, MC-106863, Pacemaker Express, Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc., MC-170981, and Global Van Lines, Inc., MC-41089/144860 petition for waiver of Section 1057.22(a) and a portion of 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

WE FIND:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under permits or certificates issued by this Commission. Laidlaw Carriers, Inc., also holds operating authority issued by several Provincial transport boards to conduct similar transportation within Canada.

Contrans Corporation controls Laidlaw Carriers, Inc. and Zephyr Transport, Inc., under Commission order MC-F-16387. Similar authority was granted by order MC-F-16686, served February 4, 1986, for Contrans Corp control of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier and Pacemaker Express, Inc. The control over Global Van Lines, Inc., is currently being sought in a petition for exemption in Docket MC-F-17085.

Under service date of March 14, 1986, a waiver similar to that sought here was granted to all affiliates of Contrans Corporation, except Global Van Lines, Inc. Contrans Corporation is curtently operating Global Van Lines, Inc., under temporary authority and is desirous of including that operation within the ambit of the relief granted in the previous waiver.

Petitioners wishing to optimize utilization of the corporate family fleet of vehicles, will employ prudent exchanges of equipment between all members of the group. In an attempt to obtain the maximum potential efficiencies and economies of such exchanges, waiver is sought of those portions of the leasing regulations viewed as creating an unnecessary administrative burden on the carriers.

Dispatch records and operational logs maintained within the corporate family are available at all times to verify changes in control and responsibility for the operation of the individual vehicles. For these reasons, the petitioners urge that vehicle identification requirements set forth in Section 1057.22(a) and the issuance of receipts required by Section 1057.22(c)(2)and (4) be waived, as not needed in the public interest, when equipment is exchanged within the Contrans Corporation family of carriers.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc., MC-170981 and Global Van Lines, Inc., MC-41089/144860, all members of the Contrans Corporation motor carrier group, for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4) is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regula- tions of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/ carrier lease signed by one of the carriers named above.

EDWARDS TRANSFER & STORAGE CO., MC-38799
MILLER TRANSFER AND RIGGING CO., MC-87103

Decided: May 2, 1986

Edwards Transfer & Storage Co., MC-38799 and Miller Transfer and Rigging Co., MC-87103 petition for waiver of Section 1057.22(a) and the equipment receipts portion of 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

WE FIND:

Petitioners are regulated carriers of general commodities (with exceptions) holding authority from this Commission to perform nationwide service. They are commonly managed and controlled by United Transport Industries. Control has been approved by the Commission in a series of proceedings, the latest of which is MC-F-14768.

A common safety program under the unified control of a Director of Safety serves both operations. A system of computerized central equipment control and dispatch is used by the petitioners. All of the vehicular equipment used to perform the service is leased from fleet owners or owner-operators. A total of approximately 150 units are involved in the combined operations.

Although a master lease agreement will be used in future exchanges of equipment between the petitioners, the vehicle equipment identification provisions of Section 1057.22(a) and the receipt requirements of 1057.22(c)(2) and (4) are viewed as unnecsary since common control exists.

In the interest of improving operating efficiency through reduced empty miles and improved payloads, both of which result in energy savings, the petitioners request waiver of these regulations which have been found burdensome and costly.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy (49 U.S.C. 10101).

IT IS ORDERED:

1. The petition of Edwards Transfer & Storage Co., MC-38799 and Miller Transfer and Rigging Co., MC-87103 for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchangeof Vehicles regulations (49 C.F.R. 2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

A. J. METLER HAULING & RIGGING, INC., MC-108676
McNABB-WADSWORTH TRUCKING COMPANY, INC., MC-139207

Decided: May 2, 1986

A. J. Metler Hauling & Rigging, Inc., MC-108676 and McNabb-Wadsworth Trucking Company, MC-139207 petition for waiver of the conditional provisions of Sections 1057.22(a) and 1057.22(c), as it relates to the issuance of equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when exchanging equipment between themselves.

WE FIND:

The petitioners are regulated property carriers operating under authorities granted by this Commission. Common management control became effective under a grant of temporary authority on April 7, 1986. A request for exemption from the control approval requirements, on a permanent basis, is pending under Docket No. MC-F-17326.

Vehicular equipment and operational records are being maintained on a joint basis. Corporate records are readily available to identify equipment assignments and operational control at all times.

In conducting business on a coordinated basis of over 1,000 pieces of equipment, petitioners have found the vehicular identification requirements of Section 1057.22(a) particularly burdensome. The placing and removal of placards creates a non-productive expense. Since common control exists, the exchange of equipment receipts as required in 1057.22(c)(2) is viewed as unnecessary regulation. The joint dispatch system records all necessary information. (Although petition does not request the waiver of receipts required under 1057.22(c)(4), this should be included in the interest of consistency, if master leasing is utilized in the future.)

We further find that the granting of the petition, modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

IT IS ORDERED:

1. The petition of A. J. Metler Hauling & Rigging, Inc. MC-108676 and McNabb-Wadsworth Trucking Company, MC-139207 for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. STOOPS EXPRESS, INC., MC-144630
WINGATE TRUCKING COMPANY, INC., MC-124154
TAYLOR-MAID TRANSPORTATION, INC., MC-152180

Decided: May 2, 1986

Burlington Northern Motor Carriers, Inc. (BNMC), a non-carrier and its affiliated motor carriers Victory Freightways System, MC-142062/149308, Monroe Trucking Inc., MC-154621, Monkem Company, Inc., MC-119493, Stoops Express Inc., MC-144630, Wingate Trucking Company, Inc., MC-124154 and Taylor-Maid Transportation, Inc., MC-152180, petition for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057) when equipment is exchanged between themselves.

WE FIND:

The six carrier petitioners are motor common and contract carriers operating under certificates and permits issued by this Commission. Common control by BNMC, the parent corporation, has been approved by the decisions in Dockets MC-F-16248, MC-F-16452, MC-F-1637, and MC-F-17030. In excess of 1,475 vehicles, 76% of which are company-owned, are utilized in the operation.

Dispatch and equipment control systems provide readily accessible and adequate identification information, including the exchange of commonly-controlled equipment within the corporate family. All changes in equipment control and responsibility are verifiable. Trip leases are being accomplished under the option of master leases as established by the Commission in Ex Parte No. MC-43 (Sub-No. 14).

The carriers hold extensive operating authorities which collectively cover all 50 states. Each of the petitioners tends to concentrate in a specific geographic area, however, during the month of February 1986, approximately 570 exchanges of equipment between petitioners were made in meeting service needs. Identifying equipment and the issuance of receipts, has been found non-productive, burdensome, time consuming, costly, and since common control exists, unnecessary.

Therefore, in the interest of improved efficiency of the combined fleets, and improving service for their customers, the petitioners are seeking waiver of these specific regulations, when the exchange of equipment is between themselves.

The granting of this petition, as filed, is consistent with the past practice of the Commission and in furtherance of its goal of eliminaitng unnecessary regulation. Such action is also in accord with the National Transportation Policy at 49 U.S.C. 10101(a)(1)(B): to promote safe, adequate, economical, and efficient transportation.

IT IS ORDERED:

1. The petition of Victory Freightways System, Inc., MC-142062/149308, Monroe Trucking, Inc., MC-154621, Monkem Trucking, Inc., MC-119493, Stoops Express, Inc., MC-144630, Wingate Trucking Company, Inc., MC-124154, and Taylor-Maid Transportation, Inc., MC-152180, all motor carrier affiliates of Burlington Northern Motor Carriers, Inc., for waiver of Section 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057) is granted for the exchange of equipment between themselves as long as common control exists.

TRAILER TRANSIT, INC., MC-160088
POWER EXPRESS, INC., MC-167775
TRAILER EXPRESS, INC., MC-184004

Decided: May 2, 1986

Trailer Transit, Inc., MC-160088, Power Express, Inc. MC-167775 and Trailer Express, Inc., MC-184004 petition for waiver of the provisions of Section 1057.22(a) and 1057.22(c)(2) of the Lease and Interchange of Vehicles regulations at 49 C.F.R. Part 1057.

WE FIND:

The petitioners are regulated carriers, commonly owned and controlled, offering a nationwide service. Dispatch records, operational logs and freight movement documents are available to identify each carrier's possession interval of all vehicles that are utilized including those exchanged between the petitioners.

Owner-operators are utilized by each of the petitioners. A master lease agreement is utilized to cover incidents of leasing between the petitioners. This type of lease agreement also requires the use of equipment receipts. For this reason, in order to accomplish the total objective of the petition, it should be modified to include a waiver of that portion of 1057.22(c)(4) which requires equipment receipts.

We do find that an improvement of service and operating efficiency would result from granting of the requested waiver of the vehicle identification requirements of §1057.22(a) and the equipment receipts provisions of §1057.22(c)(2) and (4) when vehicles are exchanged between the commonly controlled petitioners.

The granting of a waiver under this petition, extends the benefits accruing under a July 30, 1985 grant to Trailer Transit, Inc., and Trailer Express, Inc.

A denial of the requested relief would offer no more protection to the public. The granting of the waiver to the petitioners, as long as they remain under common ownership, is appropriate and in keeping with the Commission's response to the National Transportation Policy.

IT IS ORDERED:

1. The petition of Trailer Transit, Inc., MC-160088, Power Express, Inc., MC-167775 and Trailer Express, Inc., MC-184004 for waiver of Section 1057.22(a) and the equipment receipts required at Section 1057.22(c)(2) and (4), of the Lease and Interchange of Vehicles regulations, 49 C.F.R. Part 1057, is granted for the exchange of equipment between the petitioners.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

THOMAS GROJEAN--CONTROL EXEMPTION--ELLSWORTH FREIGHT LINES, INC.

Petitioners' representative:
D. L. Robson
P.O. Box 1235
Fort Dodge, IA 50501

Comments should refer to No. MC-F-17400.
Decided: May 7, 1986.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition of control, by Thomas Grojean (a non-carrier individual), of Ellsworth Freight Lines, Inc. (Ellsworth Freight) (No. MC-113362). This transaction falls within the scope of section 11343 because Mr. Grojean already controls two other motor carriers: JAT Express, Inc. (JAT) (No. MC-147264) and Green Field Transport Company, Inc. (Gree Field) (No. MC-119741).

Ellsworth Freight transports primarily meats, foodstuffs, petroleum products, appliances, and paper, between points in the Midwest, East, and Southwest as a common carrier and as a contract carrier. JAT transports primarily foodstuffs, meats, bananas, and tape, between points in Illinois, Iowa, Kansas, Mississippi, Ohio, and Texas, but holds authority to operate as a common carrier of general commodities (with exceptions) between points in the United States (except Alaska and Hawaii). Green Field transports primarily meats, tools, paint, paper, and appliances, between points in the Midwest, East, and South. Green Field, like JAT, holds common carrier authority to transport general commodities (with exceptions) between points in the United States (except Alaska and Hawaii).

Mr. Grojean proposes to acquire control of Ellsworth Freight through an intermediary. Ellsworth Freight will become a wholly owned subsidiary of TFG Holding Corporation, which is itself wholly owned by Mr. Grojean. Mr. Grojean alrady controls JAT Express and Green Field through wholly owned entities TFG, Inc., and Green T, Inc., respectively.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control by Glengarry Transport, Ltd (Glengarry) (MC-140833), of XTL Transport (Transport) (a non-carrier) upon Transport's becoming a carrier subject to the Commission's jurisdiction. Transport seeks its initial grant of operating authority in No. MC-191587 to transport (1) general commodities (except household goods, commodities in bulk, and classes A and B explosives), as a motor common carrier, in foreign commerce, over irregular routes between ports of entry on the International Boundary line between the United States and Canada in Maine, New Hampshire, Vermont, New York, and Michigan, on the one hand, and, on the other, all points in the United States (except Alaska and Hawaii), and (2) general commodities (except household goods, commodities in bulk, and classes A and B explosives) as a motor contract carrier in interstate and foreign commmerce, over irregular routes between ports of entry on the International Boundary line between the United States and Canada in Maine, New Hampshire, Vermont, New York, and Michigan, on the one hand, and, on the other, all points in the United States (except Alaska and Hawaii) under continuing contract(s) with commercial shippers or receivers of such commodities. Glengarry also owns Torque Transport, Inc. (No. MC-177416), Queensway Tank Lines, Ltd. (MC-12311), IIC Transport International Commodities, Inc. (MC-173093), Truckit Transport, Inc. (MC-184032), and GTL Freight Lines, Inc. (a non-carrier). Glengarry is a wholly-owned subsidiary of GTL Investments, Inc. (Investments) (a non-carrier). Gilles LeFebvre owns a controlling interest in Investments and by virtue of such ownership also exercises a controlling interest in Glengarry and Transport. Upon issuance of authority in MC-191587 Glengarry will be in control of Transport and the four motor carriers listed above.

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

SCHNEIDER NATIONAL, INC., A NON-CARRIER AND ITS AFFILIATED MOTOR CARRIERS
INTERNATIONAL TRANSPORT, INC., MC-113855, et al

Decided: May 7, 1986

Schneider National Carriers, Inc. MC-133655, Schneider Transport, Inc., MC-51146, Schneider Tank Lines, Inc., MC-110988, Schneider National Bulk Carriers, Inc., MC-143594, Schneider National Fleet Services, Inc., MC-151138, International Transport, Inc., MC-113855, Distribution Service Systems, Inc., MC-118159, Southern National, Inc., MC-168831, and Schneider Moving & Storage, Inc., a Wisconsin intrastate carrier, LC-10855 petition for waiver of Sections 1057.22(a), 1057.22(c) as it applies to the issuance of equipment receipts, 1057.31(a) and 1057.31(d)(1) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057).

WE FIND:

Petitioners are under common control approved by this Commission. The most recent control exemption proceeding MC-F-15926, applicable to the International Transport, Inc. acquisition, was approved November 16, 1984. The petitioners have a jointly administered and common safety program. With the exception of Schneider Moving & Storage, Inc., all of the carriers hold nationwide authority. Operational logs and dispatch systems utilized are sufficient to enable tracking of vehicle assignments and control responsibilities at all times.

Petitioners, other than International Transport, Inc., have been previously granted a waiver of the leasing regulations identical to the one now requested. The order was served July 13, 1984.

The petition requests waiver of those leasing requirements related to the identification of equipment and the issuance of receipts at the time of equipment exchanges under lease or in interchange service for continuance of a through movement. Relief from these unnecessary regulations, since common control exists, has been found to greatly facilitate the operation of the business and improve service.

We find that the granting of a waiver of the specific provisions of the leasing regulations requested, to this group of nine commonly controlled carriers, permitting the elimination of burdensome regulations, conservation of energy, a greater utilization of equipment and manpower and improved service is consistent with the Commission's past practice and in accord with the National Transportation Policy (49 U.S.C. 10101).

IT IS ORDERED:

1. That the petition of Schneider National Carriers, Inc., MC-133655, Schneider Transport, Inc., MC-51146, Schneider Tank Lines, Inc., MC-110988, Schneider National Bulk Carriers, Inc., MC-143594, Schneider National Fleet Services, Inc., MC-151138, International Transport, Inc., MC-113855, Distribution Service Systems, Inc., MC-118159, Southern National, Inc., MC-168831, and Schneider Moving & Storage, Inc., the motor carrier affiliates of Schneider National, Inc., for waiver of Sections of 1057.22(a), 1057.22(c)(2) and (4) as it applies to the issuance of equipment receipts, 1057.31(a) and 1057.31(d)(1) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) is granted for the leasing and interchange of vehicles between the petitioners, so long as they remain under common control.

2. During the period of common control, all provisions of Section 1057.22 and 1057.31, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gallard, William J. Love and Heber P. Hardy. William J. Love did not participate.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Applicants' representatives:
Thomas W. Steed, Jr. & Joseph W. Eason
Moore, Van Allen, Allen & Thigpen
200 W. Morgan Street
Raleigh, NC 27611

Comments should refer to No. MC-F-17331.
Decided: May 9, 1986.

Red Bus Systems, Inc. (Red Bus) (a non-carrier) seeks authority to purchase all of the operating authority, interstate and intrastate, of Kannapolis Transit Company, Inc. (Kannapolis Transit) (No. MC-143769). Kannapolis Transit's interstate authority, issued by the Interstate Commerce Commission in No. MC-143769, authorizes operation as a common carrier by motor vehicle, in interstate or foreign commerce, over irregular routes, transporting passengers, in charter and special operations, between points in the United States (except Alaska and Hawaii). Kannapolis Transit's intrastate authority, issued by the North Carolina Utilities Commission in No. B-189, authorizes the transportation of passengers, baggage, mail and express over the following routes: (1) between China Grove and junction combined U.S. 70 - U.S. 29 and interstate 85 north of Salisbury as follows: from China Grove over combined U.S. 29 - U.S. 601 to Salisbury, and then over combined U.S. 29 - U.S. 70 to junction combined U.S. 29 - U.S. 70 and interstate 85; and (2) in and about Kannapolis as follows: from Main-East Seventh-Lane-Elwood-Venus-Cannon Blvd.-Ridge Avenue. From Main-East F-Centerview-Center Grove Road to Royal Oaks development. From Main-West First-Elm-Eighth-No. Walnut-Eleventh-Kemball-Snipe-Main. From Main-Beth Page Road.

On March 28, 1986, Red Bus, which proposes to do business as Kannapolis Transit Company, was granted temporary authority to lease Kannapolis Transit's interstate and intrastate authorities pending the outcome of this application.

Red Bus is a wholly owned subsidiary of Carolina Associates, Inc. (Carolina Associates) (a non-carrier). Carolina Associates controls two other authorized interstate passenger carriers -- Carolina Coach Company (Carolina Coach) (No. MC-1330) and Seashore Transportation Company (Seashore Transportation) (No. MC-28985) -- as wholly owned subsidiaries of Carolina Associates, pursuant to approval in No MC-F-16030. In a related proceeding, docketed as No. MC-F-17332, Carolina Associates is seeking authority to continue its control of Red Bus, Carolina Coach, and Seashore Transportation, once Red Bus becomes an interstate passenger carrier subject to the jurisdiction of the Commission. That application shall be dismissed, inasmuch as we are considering the common control aspects of the transaction in the lead proceeding involving the purchase of authority.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

PETITION FOR INVESTIGATION OF INSURANCE SURCHARGES

AGENCY: Interstate Commerce Commission

ACTION: Notice of Proposed rulemaking

SUMMARY: In response to a petition filed by the Owner-Operator Independent Drivers Association of America, Inc., (Association), the Commission has instituted a rulemaking proceeding to determine whether carriers should be prohibited from excluding revenues earned under insurance-related surcharges from computation of gross revenues. The Association seeks to ensure that owner-operators will share in the added revenues. The Interstate Carriers Conference replied in opposition and argues that adopting any rule defining gross revenues under the leasing regulations would be equivalent to the Commission regulating compensation paid to owner-operators in contravention of the holding in Central Forwarding, Inc. v. ICC, 698 F.2d 1266 (5th Cir. 1982). Comments are invited on the legal and policy issues raised in the petition and the reply.

DATES: Comments are due on June 18, 1986.
